## DETAILED ACTION

### ***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 11, 15-17, 19-20 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 11, 15-17, 19-20 of prior U.S. Patent No. 66857893. This is a double patenting rejection. The structure recited in these claims is readable on parent case claims and difference basically in minor aspects or terminology that one considered as obvious variation.

### ***Allowable Subject Matter***

3. Claims 12-14, 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 1-10, 21 are allowed.

5. The following is an examiner's statement of reasons for allowance:

Art Unit: 2839

6. None of the reference discloses a latch assembly provided on a side wall of the housing, the latch assembly including cantilevered upper and lower beams extending along the side wall and mounting brackets separated from one another along a length of the latch assembly and mounting brackets joining the latch assembly to the side wall, the latch assembly having a portion between the mounting brackets that is deflectable toward the sidewall.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

Applicant believes that the claim 11 is distinguished from all of the claims U. S. patent 6,857,893. The Examiner respectfully disagrees. Applicant, if to maintain this argument should clearly address the rejection and point out specific limitations of claim 11 that define unobvious over parent case claims including parent claim 11 and all dependent claims.

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2839

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
